

3M™ FASARA™ Glass Finishes

Pattern direction and print effect details

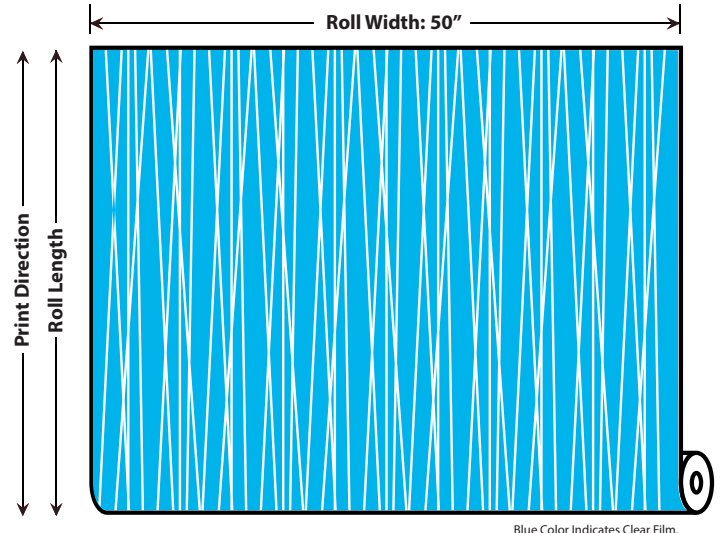

Non-Directional Patterns

(Can be oriented in either direction)

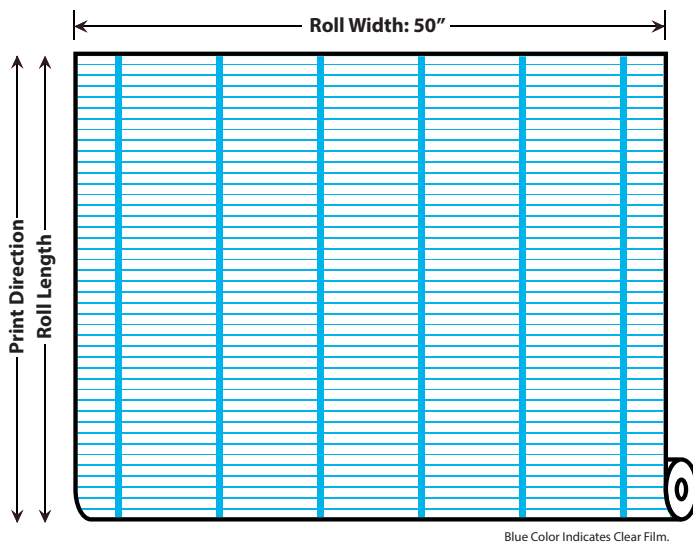

Non-directional patterns are 50" wide x any length. The pattern runs vertically with the length of the roll but can be oriented in either direction.

Vertical Patterns

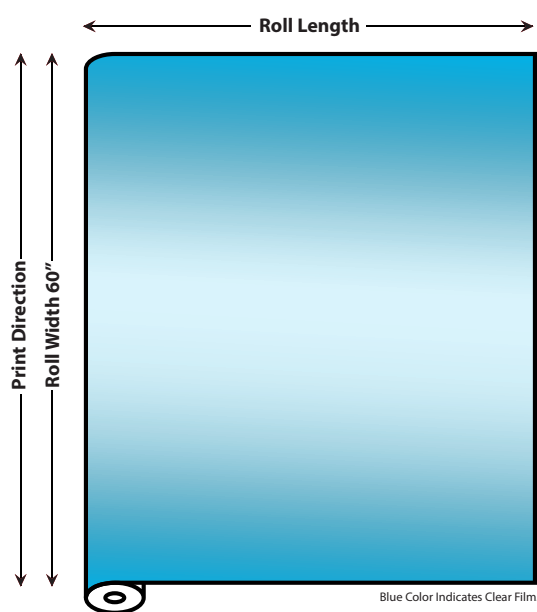

Vertical patterns are 50" wide x any length. The pattern runs vertically with the length of the roll.

Horizontal Patterns

Horizontal patterns are 50" wide x any length. The pattern runs horizontally with the width of the roll.

Horizontal Gradations

The center gradation becomes transparent at both ends. Horizontal gradations are 60" wide x any length. The pattern runs horizontally with the length of the roll and fades to clear at the top & bottom of the roll.
